

## Why Go “Green”?

### **Economic benefits:**

- ✦ 30-60% more energy efficient, lowering energy bills
- ✦ Enhances asset value and resale potential
- ✦ Increased durability
- ✦ New insulation technology keeps temperature constant and outside noise out

### **Health and community benefits:**

- ✦ Improved air, thermal and acoustic environments
- ✦ Increased comfort for occupants
- ✦ Minimized carbon footprint
- ✦ Contributes to overall quality of life

### **Environmental benefits:**

- ✦ Valuable ecosystems are protected
- ✦ Improved indoor air and water quality
- ✦ Reduced solid waste
- ✦ Building green conserves natural resources
